THE NEWARK AND NEW-YORK NEWSPAPER EX-PRESS .- Mr. Thomas Mountfield, the man who beats the railroads o'mornings in carrying newspapers to Newark, turned out yesterday with a fine new wagon, expressly constructed for his business. The panels of the vehicle contain capital pictures of THE TRIBUNE, Times, and Sun buildings, with representations of the mammoth presses used in printing the large editions of these journals. The wagon attracted a good share of public attention, yesterday, while it was being driven to the newspaper offices for the evening editions.

Life, of the 11th uit.:

"During the past week we have received a letter from the editor of Wilker's Spirit of the Times, who writes on behalf of Heenan, to express his surprise that Sayers proposes to fight in February instead of in May, adding it is impossible for Heenan to get fit by that time, and that the latter considers himself entitled to six months; haw after making the match, and wishing to date that all months either from the time of ing to date that six months either from the time of Bayers staking the first £50 (October 19), or from the signing of articles by the latter (Nov. 3). We have communicated this to the backers of Tom, and those communicated this to the backers of Tom, and these gentlemen say the reason for naming February was that Heenan expressed a wish to take the place of Aaron Jones, who, it will be remembered, was to have fought Tom in February. They did not, however, wish to force Heenan to fight so early, and on Tom's behalf expressed their willingness that the time should be postponed until the end of March, which would be within three weeks of the time demanded by Heenan from the first covering the £50. Tom and his backers add, with truth, that there is no law to compel a champion to wait six entire months for a by Heenan from the first covering the £50. Tom and his backers add, with truth, that there is no law to compel a champion to wait six entire months for a fight. The rule as to six months being the limit within which he must fight, was made with a view to bind the Champion himself, and not his challengers. It is a pity that Heenan, or some one on his behalf, has not been sent over earlier to this country, as the delays that occur between the letters and answers on either side being dispatched and received considerably enhance the difficulties of the position. Tom expresses surprise that Mr. Wilkes makes no mention of an increase of stakes, although the original proposal to do so came from Heenan, and was responded to from this side the water. A second deposit of £50 a side is to be made at Owen Swift's Horseshoe, Tichborne street, on Thursday next, when we hope Heenan will be represented. He will not, we believe, arrive here before January, although we have written to impress upon his friends the importance of his coming at once to look after his own interests.

A match between Harry Gribben of New-York and £d. Wilson of Weehawken has been arranged, the fight to take place on the last Tucsday in April, in Canada. Gribben has frequently been in the pugilistic ring, having fought three times in England, and more recently with the well-known Joe Coburn of this city. Wilson is quite young, and has never yet made his appearance in the ring.

NEW-YEAR'S DAY IN BROOKLYS .- Yesterday was duly celebrated in accordance with the old custom. The weather was bracing cold, but pleasant notwithstanding, and thousands took advantage of the occasion to call upon friends and acquaintances. Free liquor was dispensed at the public houses until 9 o'clock, and in some saloons tables were kept loaded with the substantials as well as the delicacies of life, free to all, from morning till evening. The calls were about as numerons as usual on the first day of the year, and the effects began to be observable in the afternoon, show. ing that something stronger than lemonade had been dispensed by the fair ladies who kept open house. Mayor Powell received his friends at the City Hall, from 10 o'clock a. m. to 1 o'clock p. m., during which time he passed the compliments of the season with upward of 600 of his fellow citizens. The city officials generally held themselves in readiness to receive their friends, and had numerous calls. In fact, nearly the whole male population appeared to have given themselves up to the customs peculiar to the day. Taken altogether, the day passed off as orderly as could be

NEW-YEAR'S GIFT TO A CLERGYMAN .- On Saturday evening last, a committee of the congregation worshiping in the Brooklyn Tabernacle, consisting of Mesers. J. Howard, R. Platt, Mr. Seger, Wm. W. Walsh, and P. V. R. Stanton, called upon the Pastor, the Rev. Wm. A. Bartlett, at the Mausion House, in Hicks street, and presented him with a purse containing \$500 in twenty-dollar gold pieces, contributed by the leading members of the cougregation, as a token of the affection and esteem in which they held their worthy Pastor. In allusion to it on Sunday, Mr. Bartlett said that he appreciated this style of American eloquence. He knew what five hundred dollars meant-how intense an expression it was-how much it would buy-how many debts it would pay-how difficult it was of aceumulation-how much want it would relieve. "And yet," said the speaker, "dear as it is intrinsically, and graven all over as it is with dearer associations-if I know my own heart to-night, I would count out each glittering wheel, could all together equip a chariot in which the pumpilest soul before the could rive to giory." SALE OF PEWS IN PLYMOUTH CHURCH .- The regular annual sale of the pews i'a Plymouth Church (the Rev. H. W. Beecher's) to sk place in the church last evening not less than 2,000 persons being present.

At 71 o'clock the Rev. Mr Beecher made a few observations introductory to the business of the evening, and introduced Mr. Pile'sury as the auctioneer, with whom the congregation would have to deal for several hours. The first choice of a pew was purchased by Mr. H. C. Bov/en at a premium of \$160. From this point the bidding was spirited, and was conducted with apparent great good nature. The work went on well with the help of a goodly number of ladies, who gave a cheerful aspect to the congregation, and encouragement to the auctioneer. By 94 o'clock, all the best chances were taken up, and the house began to thin out, and continued to dwindle down till all the pews and a number of the chairs in the aisles had been

The highest premium paid for a pew was \$160, and the lowest 25 cents. Every pew brought a premium but one.

The assessed value of the pews was set down at \$12,050, being the same as last year. To this was added for premiums upon pews the sam of \$16,690 25, the assessed value of the chairs \$668, with premiums thereon \$21 25, thus resulting in the net sum of \$29,429 50, being about 40 per cent increase upon the amount realized last year. There are 29 chairs not yet sold, the assessed value of which amounts to \$157.

ALLEGED HIGHWAY ROBBERY.-A West Indian. ALLEGED HIGHWAY ROBBERT.—A West Indian, named John Green, called at the First Precinct Station-House on Saturday night, and stated that at about 9 o'clock the same evening he was attacked by a gang of some half dozen fellows while walking through Laurence street, and robbed of a draft of \$200 on Hrown Bros., bankers, and \$7.50 in bills. From the description of the parties, Officers Boyd, Riley, and Gason arrested three men manned Peter McGes, Peter Tracy, and Edward Brady, who were identified by Green as being of the party who robbed him. The accusaed were tecked up. Green stated that he lived at No. 45 West Broadway, New-York; but the officers accertained yesterday that he lived in Wooster street. Some other statements were found equally unreliable, and Green was looked up as a witness to testify on the examination of the parties.

SUPPOSED FATAL ASSAULT .- About 1 o'clock on Monday night Chief-of-Police Marinus received word at the Station-House that Constable John G. Haybeck had been killed in an affray at a dance in a lager beer saloon kept by Peter Ludwick in Prospect street. Several officers were dispatched to the place, and on arriving, found the officer lying upon the sidewalk, insensible, and bleeding profusely from several severe gastes about his head and face. The officer had been engaged by the proprietor of the place to keep order. It appears that a disturbance was caused by several Irishmen, who forcibly entered the house, and ill-treated the inmates. The officer attempted to put them out, when he was badly beaten. The proprietor of the house, Peter Ludwick, who had been arrested on suspicion, was discharged yesterday, as it was shown that he was aiding the officer. The other two prisoners, Jas. Dwynan and John Martin,

ACCIDENT ON THE MORRIS AND ESSEY RAILROAD. -As the train on the Morris and Essex Railroad was within one-fourth of a mile of Chatham Depot the axle broke, and caused the wheel and axle to fall upon the track, producing a severe shock to the whole train. The brakes were instantly applied, and fortunately the train stopped before the wheel or axle got out of the truck. No further damage was done. The train was detained about two hours, and arrived at Jersey City at eleven minutes to 12.

FIRE IN A CHURCH.—A fire was discovered early on Sunday morning, in the Episcopal Church, Hudson City. It was extinguished with but slight damage.

COMMITMENTS TO THE CITY PRISON .- During the month of December there were 109 persons committed to the City Prison in Jersey City. Of these, there were charged with drunkenness, 75; stealing, 9; assault 9; burglary, 5; forgery, 1.

BRUTAL ASSAULT.—A man named Daniel Kain, in the employ of the New-York and Erie Raliroad Company, while watching a cattle-train on Sanday morning, was attacked by three of his fellow-workmen, and beaten in cruel manner. After knocking him down, they stamped upon him, breaking three of his ribs, and otherwise injuring him.

LIQUOR DEALERS' DODGE.-The Grand Jury LIQUOR DEALERS' DODGE.—The Grand Jury of Union County, at its late session, made a presentment to the Court, stating that in their investigations they have found that nearly all the complaints before them have originated in the immoderate use of intoxicating liquors. One of the principal opportunities for procuring liquors has appeared to be from preddlers, who, in wagons, with signs of burning fluid, furnish weekly supplies of poisound drinks, and deliver them from door to door at such low prices as plainly indicate their miserable quality. Being informed that the Grand Jury have no jurisdiction in cases of sele of a quart or more, they present the matter for the consideration of the Court and the public, that a proper application may be made to the Legislature to abate the evil.

LIABILITY OF HUSBANDS .- The Newark Advertises LIABILITY OF HUSBANDS.—The Newark Advertiser says:—An interesting decision was made by Justice Sanford this morning in a civil suit. One man sued another for payment for the board of his wife for sixteen months, at \$6 a month. The defendant set up that he had advertised his wife and given public notice that he would pay no debts of her contracting. The Justice decided that while this might serve as a warning, it was no legal way of getting clear of the wife's liabilities; that the husband in the eye of the law was liable for the wife's debts, so long as she continued such. Judgment was accordingly given for the plaintiff in the full amount claimed.

REPRIEVE OF MAUDE .- Patrick Maude, who was to have been executed at Newark on Thursday, for the marder of his sister, has been reprieved by Gov. Newell for one week. Meanwhile the Court of Pardons will collect further informa-tion, in order definitely and finally to decide the matter.

TUESDAY, Jan. 3-r. M. The year opens with a dull and heavy Stock market, and with no appearance of any recuperative element for the present. The quotations, however, to-day, were mainly governed by the stringency of money, which threw considerable amounts of cash stock on the market, which was too weak to take it without vielding. There was a good demand for buyers' options at rather more than the usual difference, and the bear jobbers were not disposed to put out their options excepting to a limited extent. There was very little life in the market, as is usual on the day following our great holiday, and what disposition may have existed to buy was kept in check by the difficulty of carrying stocks. Central opened at 751, but declined as the call proceeded to 741, and after, in the street, to 744. The recommendation of the Governor to toll this road, although accompanied by the sop of taking off the But for the agitation of this question we should have anticipated a reaction in this Stock, as the street is very short, and a vigorous rally on the part of the buils ma was in fair demand but not firm. In Western chares considerable business was done in making turns, but the market was heavy excepting for Illinois Central, which improved slightly under the favorable advices from London. In other descriptions the changes were not important. At the Second Board there was a moderate business done, and the market exhibited weakness, especially at the close. In the Bond market there was not much change, and the transactions were moderate. Missouri 6e sold at 801, ex-interest, and Virginias at 904. Railroad bonds were very inactive at about Saturday's prices. Erie Firsts, however, were in demand at 95, ex-interest, which is a considerable advance. The closing prices were: Virginia 6s, 901 @ 901; Missouri 6e, 801 2801; Canton Company, 161 20171; Camberland Coal, 132131; Pacific Mail, 762761; New-York Central Railroad, 742 3742; Erie Railroad, 81 282; Hudson River Railroad, 411 2411; Harlem Railroad, 82 29; Harlem Railroad Preferred, 331 234; Reading Railroad, 421 0421; Michigan Central Railroad, 371 @38; Michigan Southern and Northern Indiana Railroad, 61 264; Michigan Southern and Northern Indiana Guaranteed, 16; 217; Panama Railroad, 126; @127; Illinois Central Railroad, 57; @57; Gale na and Chicego Railroad, 641 264; Cleveland and Toledo Railroad, 19; 219; Chicago and Rock Island Railroad, 62; 262; Illinois Central 7s, 85 285.

The market for foreign bills for the present packet has been irregular, and the mail is only a moderate one. The business has been done at lower rates than for the previous steamer. Some drawers of Sterling ask 1094, but the business has been done at 1084 @ 109 for banks' and bankers'. Good Commercia! Sterling sold at 108 a 1084. France are 5.224 a 5.174. The supply of

bills has been large.

Mr. Chas. R. Marvin, President of the Board of Brokers, has formed a Stock House with his son, Mr. Chas. H. Marvin. Mr.D. Kellogg Comstock has become associated with Messrs. Parmelee & Beecher in the General Note-Brokerage business.

The business of the Clearing House to-day was very large, embracing the transactions of three days. They were \$35,240,000. Daniel Burtnett, esq., having been been elected President of the Citizens' Bank of this city, has resigned the Presidency of the Citizens' Fire Insurance Company. James M. McLean, esq., has been elected to fill the vacancy thus occasioned, while Mr. Burtnett has been elected Vice-President, and Edward A. Walton, Secretary of the Company. There was a sharp activity in the money market to-day, and good borrowers in some cases were obliged to pay more than legal interest. Nothing was done under 7 P cent, either in demand loans or paper. The disbursements of the week, however, will be very large, and bring considerable relief. We shall los some gold to the South, and by payments into the Sub-Treasury, but this drain does not affect restriction upon local fares, had an unfavorable effect. the Banks like a shipment of gold to Europe. Consequently we expect to see the expansion of loans go on until, perhaps, the highest previous point of enlargement is touched. We hear of no new would bring in buyere ter very large amounts. I'dne I denuties to day in the payment of compone. There was,

however, a small attempt at repudiation made by the State of Illinois, which instructed its agent in this city to refuse interest payment on the State Conpon Sixes, old unregistered bonds of \$1,000 each, issued to the Illinois and Michigan Canal, due in 1860, numbered 886 to 993 inclusive. These are the bonds issued to Gov. Matteson in exchange for stolen Canal certificates. Later in the day, however, better counsels prevailed, as will be seen by the sonexed note:

No. 95 WALL-ST., Tuesday, Jan. 3—p. m.

DEAR SIR: Will you oblige me by announcing at the Brokers' Board, as early as convenient, that I will pay the coupons from Ill. & M. Canal Bonds 886 to 993, due to-day. The Bonds are dated July 1, 1847, and are payable after 1860. I would like to have this announcement made, because it was stated at the Board on Saturday that the State Treasurer would not take up these coupons if presented to him. I have just received a telegram requesting that I should protect them. Very truly yours, &c.,

The Mesers. W. & J. O'BRIEN.

The Hadeen Pierre Relicood asymings for December.

The Hudson River Railroad earnings for December are very satisfactory, and the increase is larger than was anticipated by the Company. The figures are: 

Increase....

The Illinois Central Railroad earnings for December were \$194,000, against \$153,998 in 1858, an increase of \$40,000. The collections in the Land-Office were \$61,310 in December.

The third week on the Wabash Valley Road gives

\$9.870.

The East Pennsylvania Railroad Company have made a negotiation of \$225,000 of their bonds, being the balance of the issue, at 90 \$\tilde{\psi}\$ cent, to parties who have recently been making a thorough examination of the affairs and property of the Company. This negotiation entirely clears the Company from floating debt, and enables the managers to pay for all the equipage, material, &c., required to make the road an important link in the Great Middle Route to the West.

"We announced some time since that the Eric and North-East Railroad Company, on and after Dec. 1, proposed to exact an arbitrary rate or toil upon all through freights passing over its line. This tax was imposed to reimburse the road for moneys spent in maintaining the line during the Eric war, some two or three months since. The Eric Road gave notice to its customers and to its Western connections that it would protest the bills of lading of all property consigned to it against this tax, and the road paid the Eric and North-East Road its toil, but under protest. The Cincinnati Commercial now understands that Mesers. Osborne and Blanchard, of the New-York and Eric Railroad, have been obtaining the necessary affidavits and documents, and have gone to New-York, where it is proposed to test the right of the Eric and North-East Road to levy this arbitrary tax."

Extracts from agent's letter under date of Minnesota Mine, Dec. 17, 1859:

"Minnesota—Herewith I hand return of mineral raised in November, 1405 time, which we expected to increase by some twenty time of masses that were all cut up and ready to come out, but, owing to the breaking of the hoisting-chain in No. 3 Shaft, we were anable to include in the month's return. We have a decided improvement in the vein at 60 fm, level, west of No. 3 Shaft, and may relize several hundred time of copper from that place during the Winter. We threw down there 50 to 69 times this week by sand blast, without disturbing much of the copper exposed. We have a good vein at 70 fm, level, east of No. 5, which is producing well in mass copper; elso at 90 fm, level, on both sides of No. 4 Shaft. The 'open cut,' or conglomerate, continues to show large quantites of copper, but is slow to get away, as the openings are large and the rock hard. At bottom of No. 3, below 99 fm, level, we find some masses in sinking. West of this shaft, in the 99, we have just finished cutting a mass of about 50 tims, some of the pleces from which were three feet thick, and very soild and pure. There is still a large amount of copper exposed there, which can be got away soon. No. 5 Shaft shows mass copper in sinking below 70 fm, level, in 120 fm, level there is a promising vein cast of No. 9, and also between Nos. 9 and 10. On the whole, considering the present favorable appearances, I think we shall be certain to make satisfactory returns for the Winter months."

"Rockingan—We rationed to improve in sinking No. 4 shaft, which is now 40 feet below the 40 fm, level. The lock at that point is 13 inches thick, of very good stamp-work, whereas we have hither to had but little copper in this shaft below the 20 fm, level. Shafts Nos. 1 and 3 are down to the 50 fm, and the latter timbered up, ready for working the engine hibbles. In the level isself, we are drifting each way from the shaft, the vein showing considerable mass copper. In this shaft below the Minerale

futher improved."
"Separion.—We have weighed off two barrels of November product, say 1,659 lb. We are working along, and continuing the drift and stope as usual, without much change in the voin for the past month, but are confidently looking for further improvement as we drift further westward and more into the body of the hill."
